### Nomination Tips:

**1. Plan Ahead**

Start preparing your nomination well before the deadline – the more time you leave yourself, the better! Review this package carefully before beginning so you know what you need. Take care in preparing your nomination and be sure to follow all instructions.

**2. Work With Your Nominee**

Ask for information that you can include in your nomination package. This can include newspaper articles, published works, research, projects or photographs. Also ask your nominee for his/her résumé or CV for additional information that could be used in the nomination. If you're worried about gathering all the information on your own, make it a team effort! Get help from colleagues, clients, parents, supervisors or others.

**3. Be Detailed**

Judges can only score your nomination based on the information you provide in the package; so, you must assume they know nothing about the nominee. Avoid general, unsupported statements – provide specific, concrete examples to support your points. Scores are based on the criteria in the “Support for Nomination” section; so, use them as a guide in preparing your answers. Be sure to answer all questions completely and accurately and check your application for grammatical, spelling and typographical errors.

**4. Submit on Time**

You can send in your nomination package by email, regular mail or fax by October 31, 2017. Before submitting your nomination, make sure that all important information (including your supporting documentation) is included within your submission.

**5. Persevere**

If your nomination is not successful this year, apply again! You can ask the Awards and Recognition Committee for comments and feedback from your evaluation so you know what to improve on before you re-submit. You can also request that your nomination package be returned if you need the information to re-apply.
