SUGGESTED REFERENCES

AUDIOLGY

NOTES:
Each question on the audiology clinical certification examination is coded to:
2) A specific literature reference that may or may not be included in the reference list above.

This handout of “suggested references” represents a listing of basic audiology text books covering fundamental topics. This is not a comprehensive listing and examination questions may be derived from other sources. Peer reviewed journals and conference proceedings are considered acceptable sources as they may contain more updated information related to specific topics. These documents should be read and interpreted with appropriate judgment. Suggested audiology journals and proceedings are listed below as examples:

- ANSI Standards
- Ear & Hearing
- International Journal of Audiology
- Journal of the American Academy of Audiology
- Trends in Amplification
- Proceedings from A Sound Foundation Through Early Amplification
